- Area-based progress
- Journey Cards
- Theme system
- Accessibility settings
- Offline support
- Import/Export

Long-term Architecture

Core Engine + Companion Packs (Palworld, Stardew Valley, Monster Hunter, No Man's Sky, etc.)

Product Manifesto

We believe games should be explored—not researched. We believe players shouldn't need dozens of browser tabs. We believe completion should feel satisfying, not overwhelming. Every feature should help players spend more time playing and less time searching.
